1. Instructional leadership plays a pivotal role in shaping the learning condition for early literacy, and there are several compelling reasons to emphasize its significance in the context that early literacy skills are the building blocks of a child's academic success and high quality early literacy instruction which is a powerful tool for closing achievement gaps (Klein, L. & Knitzer, J., 2006).

2. With reference to Regional Memorandum No. 379, s.2023 known as the conduct of the Regional Training of Trainers (RTOT) for the ABC+ Instructional Leadership Training (ILT): Strengthening Learning Conditions for Early Literacy, this Office will conduct a **Divisionwide Training of Elementary School Heads for the ABC+ Instructional Leadership Training: Strengthening Learning Condition for Early Literacy:**
