SCHOOLS DIVISION OF PAMPANGA

Advisory No. 003, s. 2025
July 31, 2025

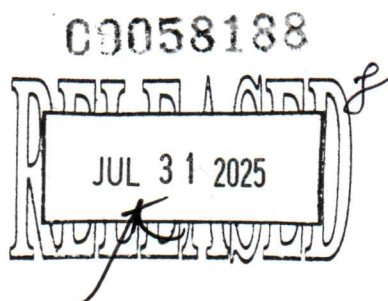

In compliance with DepEd Order (DO) No.8 s. 2013
this advisory is issued not for endorsement per DO 28, s. 2001,
but only for the information of DepEd officials,
personnel/staff, as well as the concerned public.

Conduct of Rabies Information and Education Campaign

Attached herewith is a letter from Dr. Jasmin S. Manlutac, Provincial Veterinarian, requesting permission to conduct rabies information and education campaign in selected elementary schools in Pampanga.

Furthermore, the participation of learners and teachers in the aforementioned activity is purely VOLUNTARY and will not hamper instructional time in compliance with the provisions of DepEd Order No.003 s. 2024 titled Amendment to DepEd Order No.022 s.2023(Implementing Guidelines on the School Calendar and Activities) and DO 9 s.2005 titled Instituting Measures to increase Engaged Time-On-Task and ensuring Compliance Therewith.

For your information and guidance.

DR. ROMEO M. ALIP

Schools Division Superintendent

DepEd

City of San Fernando, Pampanga

Sir:

Greetings from the Provincial Veterinary Office of Pampanga!

In line with the Provincial Government of Pampanga's commitment in promoting public health and safety, particularly through its Animal Rabies and Control Program, we are respectfully requesting your good office to allow us to conduct Rabies Information and Education Campaign in selected elementary schools within your jurisdiction.

This campaign is part of our initiatives for Animal Rabies Awareness Prevention and Control Program under the leadership of Hon. Lilia G. Pineda, which aims to educate our elementary pupils about the rabies, its transmission, and what to do in case of dog or cat bites. Data from previous years have shown that most of the dog and cat bite victims are commonly children and young adults. Therefore, it is important that they are well-informed and have the right knowledge on rabies transmission and its prevention.

We assure you that we will conduct brief and age-appropriate presentation in selected elementary schools, in coordination with your office and school heads. Through this collaboration, our main objective is to strengthen the preventive approach on rabies and provide sufficient and effective information in our community.

Should you need further information regarding this request, please feel free to contact the undersigned at 09323303162 or at pvet.pampanga@gmail.com.

Looking forward to your favorable response and support in this important advocacy.

Thank you very much.

Very truly yours,

DR. JASMIN S. MANLUTAC
Provincial Veterinarian
