THRU: **MS. PAULA S. MENESES**
DRRM Division Coordinator

Dear Dr. Alip :

Pampanga, with its extensive coastline along Manila Bay, has communities highly exposed to hydrometeorological hazards. This vulnerability is worsened by the lack of detailed data on at-risk populations. DOST-PHIVOLCS has also warned that a major quake along the Manila Trench could trigger tsunamis impacting eastern Luzon, prompting LGUs to strengthen preparedness measures and SOPs. The coastal areas of the province, is home to a significant number of students, many of which are part of vulnerable sectors.

To address the data gap and better protect vulnerable groups — such as the elderly, PWDs, the sick, children, and pregnant women — the Provincial Government of Pampanga has continuously implemented the **House Tagging of Priority Population program** since 2015. As our counterpart in the education sector, your support is vital in ensuring that student safety in the high-risk coastal barangays are also included in our DRRM efforts.

In line with this, we would like to kindly invite **2 representatives from the Department of Education from each of the 4 coastal municipalities to serve as members of the House Tagging Team** (*schedules and participants as attached*). This will be a series of meetings and field activities to coordinate efforts, align protocols, and ensure that all stakeholders are well-informed and engaged throughout the implementation process.

Earnestly anticipating your usual support and cooperation regarding this matter.

Thank you and best regards.

Very truly yours,

DENNIS G. PINEDA
Governor
Province of Pampanga
